

Rounds for research donations urgently needed

February 17, 2015

We've been advertising for donations to our Rounds for Research campaign. We urgently need donations; as of this writing we only have received donations from three clubs! The proceeds of this auction will go toward to development of the new turfgrass research facility on East Campus. More specifically, we need to install a new irrigation control computer to effectively manage the 70+ research plots. Our goal is to launch the auction in early April so we need donations as soon as possible.

A typical donation includes one foursome (with or without cart). Other limitations can be added if required by the club (i.e. dress code, days of the week that the rounds can be redeemed, etc.). Participation is also a great way to expand your golfer base or gain members, increase food & drink revenue and publically support turfgrass research at UNL. Please consider a donation, and talk to your other superintendent friends about donating to this auction.

It's easy to donate. Simply click on [this link](#) and describe your donation. You can also find a link on at nebraskaturfgrass.com and turf.unl.edu. We've hoping to show off the fruits of this fundraiser at the 2016 Summer Field Day on East Campus *IN LINCOLN* this July. Thanks for your help.

Bill Kreuser, Assistant Professor, Extension Turfgrass Specialist, wkreuser2@unl.edu
