

A roundup on glyphosate history, use, issues & alternatives - *The Turf Zone, Mississippi Turfgrass Association*

August 12, 2019

The following link, posted by the Mississippi Turfgrass Association and written by Dr. Jeffery Derr of Virginia Tech University, provides an excellent science-based summary of glyphosate, the active ingredient in most Round Up products safety. In light of the recent lawsuits in California and the misinformation that has arisen from the subsequent media outlets, I thought this could be useful for applicators as well as others.
