

**Dr. Soldat to give a seminar on turf and the environment at UNL
March 29, 2016**

Dr. Doug Soldat from the University of Wisconsin-Madison will be presenting at the Agronomy and Horticulture Departmental Seminar on Friday, April 1st. Dr. Soldat is an Associate Professor and Extension Specialist with a focus on turfgrass and urban soils in the Department of Soil Science. The title of his seminar is, “Ecosystem services and environmental consequences of lawns and turfgrass management”. Dr. Soldat will discuss the positive and negative consequences of turfgrass management on our urban environment, great information to have on-hand when you’re asked about turf in the environment by a client, reporter, or government official. A full seminar description can be found [here](#).

The seminar is free to attend and starts at 3:30 pm in 150 Keim Hall. If you cannot attend in person, join us online by clicking the following link at 3:30 on Friday, <https://connect.unl.edu/FridaySeminarSeries>. Please contact me for directions and parking information.
