

**Prepare for Field Day next week
July 11, 2018**

Summer Field Day is quickly approaching on Wednesday, July 18th. Registration opens at 7:45 at the East Campus Turf Plots (38th and Huntington Ave). Parking on East Campus is included with your registration. Parking attendants will help direct you to the nearest available parking lot.

A morning trade show will run from 7:45 to 8:45 and includes free coffee and rolls. The formal morning tours will begin at 9:00 am and run until lunch at 11:45. We'll have those gourmet hotdogs and a tent to help attendees escape the sun during lunch. Be sure to visit the trade show vendors and try your hand at our new putting game on the sand research green.

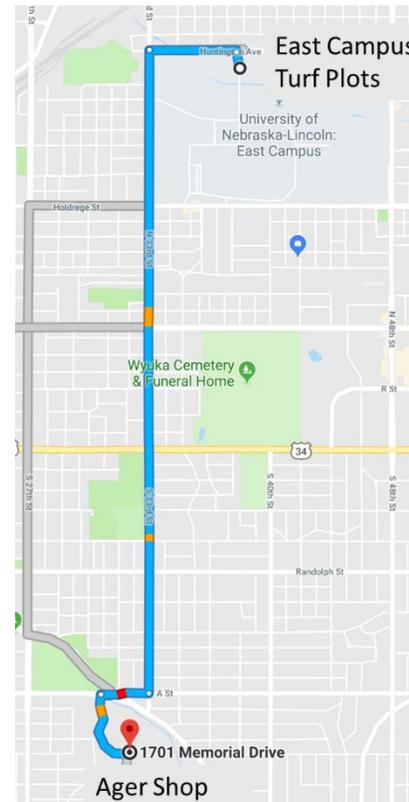

Following lunch, Field Day will move to Jim Ager Memorial Golf Course for a less formal walking field day. Afternoon topics will focus on highly managed turf sites. We ask that attendees park in the south lot Auld Pavilion (see map) and walk over to the maintenance shop. We'd like to encourage afternoon only attendees to register on East Campus and enjoy lunch, but you're welcome to register at Ager if you cannot make lunch.

We'll end the day with a fun 2-person best ball tournament at Jim Ager. This nine-hole, par-three, golf course is maintained by our turfgrass students. They have been working hard and look forward to hosting the field day attendees. Show your support and sign up for this fun and casual event ASAP.

Field day is something we look forward to each year. View the [brochure](#) and click [here to register](#). We look forward to seeing you on Wednesday, July 18.

Roch Gaussoin, Professor of Turfgrass Science,
