

Turf students' internship blogs featured on TurfNet

We have fantastic turfgrass students at the University of Nebraska-Lincoln. Each summer they gain real-world turf and landscape management experience through our internship program. This past summer, two of our students had the opportunity to intern outside of the USA. They also were chosen to have blogs about their experiences featured on TurfNet.com. Jeff Lenihan is currently a junior in the Turf and Landscape Management program at UNL. He interned with Campey Turfcare Systems where he got experience working on some of the top Soccer pitches in the UK. Jeff also gained experience with new equipment like the Air2G2 and Koro Topmaker machines. See Jeff's blog posts [here](#).

Eric Bruening is a senior in the Turf and Landscape Management Program at UNL. He spent his first part of the summer interning at Lahinch Golf Club in Lahinch, Ireland. Eric got to experience turf management and greenkeeping in Ireland, including how to renovate and rebuild revetted bunkers. In August Eric travelled to Whistling Straits in Haven, WI where he joined fellow UNL Turf students, Andrew Getty and Darrell Michael, for the 2015 PGA Championship. Read more about his internship experience on his [blog](#).

We are really proud of all our students for completing their internships this past summer and can't wait to see where they end up next year.

Bill Kreuser, Assistant Professor, Extension Turfgrass Specialist, wkreuser2@unl.edu

Turf students Andrew Getty (left), Eric Bruening (standing), and Darrell Michael (right) were measuring green speed before the first round of the 2015 PGA Championship at Whistling Straits Golf Course

Extension is a Division of the Institute of Agriculture and Natural Resources at the University of Nebraska-Lincoln cooperating with the Counties and the United States Department of Agriculture.
